Hungerford & Terry, Inc. Appoints Alejandro Cuper Representative for Central America, Argentina, Chile, Ecuador, Mexico, Peru and Uruguay

Clayton, New Jersey USA – Hungerford & Terry, Inc., a leading water conditioning firm since 1909, has appointed Alejandro Cuper as their exclusive representative as of December 2008 for Mexico, Argentina, Chile, Ecuador, Peru, Uruguay and Central America.

Mr. Cuper worked for Kinetico, Inc. from 2005 to 2008. At that firm, he held several positions, including International Manager of Distribution, and during 2008 he was Sales Representative in charge of residential and small commercial water systems for Latin America and the Caribbean region.

“Alejandro Cuper brings excellent working and scholastic credentials that are important to Hungerford & Terry’s business efforts,” states Ken Sayell, Vice President of Sales & Marketing for Hungerford & Terry. “As we celebrate our 100th Anniversary in 2009, we welcome his extensive background in water treatment and environmental concerns. His unique experience as an advisor to the World Bank’s Board of Directors on water and related environmental issues is an asset to our municipal and industrial water engineering efforts and Hungerford & Terry’s customers.”

Earlier positions Mr. Cuper has held include: Associate Professor at the University of El Salvador, Buenos Aires, Argentina; Environmental Consultant for the government of Argentina; and Director of Sales for Hidraulica Mileto, in Argentina.

A graduate with a Master of Science from the University of Edinburgh, Scotland (UK), Mr. Cuper also holds a Bachelor's degree in Physics from the Free University of Brussels (Belgium).

As of December 2008, Mr. Cuper's office is located at: Boulevard Centro Sur 3101, Claustro de Santiago 66-1, Santiago de Queretaro 76090, Queretaro, Mexico. Tel: (+52) (442) 229-1537. Cell: (+52) (1442) 343-0808. Email: alejandrocuper@yahoo.com.

Since 1909, Hungerford & Terry has designed and manufactured thousands of systems that incorporate both industry standard and unique water treatment technologies. In 2009, Hungerford & Terry celebrates 100 years of engineering service for water conditioning.

Based in Clayton, NJ, USA, Hungerford & Terry has 30 sales representative organizations throughout the United States, as well as representatives in Canada, Mexico, and Asia.

Hungerford & Terry is a leading distributor of high-performance water filtration media, including GreensandPlus.
