

Hungerford & Terry Issues Corporate Brochure Covering Its Custom-Built Water Treatment Systems

Company Services Municipal / Governmental, Utility and Industrial Water Supplies Using Advanced Proprietary Treatment Technologies

Clayton, NJ – Hungerford & Terry has just issued a corporate brochure detailing its water treatment services and technologies.

The company provides a wide range of custom-built solutions to combat water quality problems for municipal / governmental, utility and industrial water supplies on a global basis.

H & T systems improve water quality through an extensive process of analysis and technology implementation – all designed in the most cost-effective manner. Its water treatment technology covers a wide range of water quality problems that have been identified around the world.

H & T water treatment systems include: ion exchange, Ferrosand filtration for iron, manganese, and arsenic removal, high efficiency softening systems that do not increase sodium, and nitrate removal.

The company's eight-page, glossy brochure covers the entire line of water systems and processes, and includes descriptive photographs and diagrams detailing its major custom-designed equipment. The systems are designed to work in conjunction with the most advanced custom controls systems required for the operation of today's high-performance water systems.

In addition, the H&T brochure reviews the capabilities of the company's complete in-house laboratory that offers the latest analytic technology.

“Our corporate brochure offers customers a synopsis of what Hungerford & Terry has successfully done for almost 100 years,” said Alan A. Davis, president of H&T. “It also allows readers to see at a glance why we've been so successful and why our client base includes some of the finest and most respected corporations, municipal utilities, and governmental agencies in the world.”

To obtain copies of this corporate brochure, please contact Ms. Vivian Augustine, Hungerford & Terry Inc., 226 Atlantic Avenue, Clayton, NJ 08312-0650; Tel: 856.881.3200 ext. 133; Fax; 856.881.6859; e-mail: sales@hungerfordterry.com; or web site: www.hungerfordterry.com.
